STRATEGIC GROWTH & TRANSFORMATION PROPOSAL

18-month strategic transformation roadmap

**REPOSITION INNOSYNC FROM A VOLUME-LED SME SAAS PROVIDER TO A HIGH-VALUE,
MID-MARKET FOCUSED INDUSTRY PLATFORM ACROSS INDIA AND SELECTED
INTERNATIONAL MARKETS.**

Growth Strategy | Product Innovation | Go-To-Market | Organisational Readiness

GROWTH STRATEGY

- Objective

Transition from volume-driven SME sales to high-value Mid-Market contracts with stronger margins and longer customer lifecycles.

- Target Markets

Geographies: Southeast Asia (SEA) & GCC

Why these regions:

- Similar digital adoption gaps as India
- Higher SaaS pricing tolerance
- Rapid growth in retail and healthcare digitisation
- Lower localisation complexity vs Western markets

- Vertical Focus

- Retail & Healthcare
- Ideal Customer Profile:

- 1. 100–500 employees
- 2. Multi-location or compliance-driven operations
- 3. Need for specialised workflows over generic tools

- Market Entry Approach

- Account-Based Marketing (ABM)

1. Target high-visibility “anchor clients”
2. Build credibility through flagship wins
3. Leverage case studies to scale regional penetration

- Expected Outcome

1. Higher ARPU
2. Faster trust-building in new markets
3. Clear mid-market positioning

PRODUCT & INNOVATION

- Objective

Reposition SyncOne from a general-purpose platform to a vertical-first SaaS solution.

- Retail Vertical Module

- Inventory & POS synchronisation
- Store-level stock visibility
- Demand mismatch and stock-out reduction

- Healthcare Workflow Suite

- Compliance-ready scheduling and workflow automation
- Secure, regulated data environment
- Designed for clinics, diagnostics, and mid-sized hospitals

- Predictive AI Layer – SyncPredict

- AI-driven resource and demand forecasting
- Predicts staffing gaps, inventory shortages, and utilisation risks
- Moves product from reporting → prescriptive insights for CXOs

- Strategic Differentiation

- Deep industry workflows vs horizontal SaaS
- Higher switching costs
- Premium value perception

GO-TO-MARKET STRATEGY

x x x x

- Sales Model

- Hybrid GTM:
 1. Inside sales for mid-market accounts
 2. Industry-focused enterprise sales specialists
- Regional sales pods for SEA & GCC

- Customer Acquisition

1. Vertical-specific demos and proof-of-value pilots
2. Industry case studies from anchor clients
3. Targeted LinkedIn ABM campaigns

- Partnerships

1. Retail: POS vendors, ERP providers
2. Healthcare: Health IT vendors, compliance consultants
3. Cloud marketplaces for faster distribution

- Pricing Strategy

- Tiered SaaS model:
 1. Core Platform
 2. Industry Modules
 3. Enterprise (custom workflows + SLAs)
- Usage-based pricing for AI and analytics

- Expected Impact

1. Higher conversion rates
2. Increased deal size
3. Predictable recurring revenue

ORGANISATIONAL READINESS

- Key Capability Gaps

- Industry-focused product managers
- Enterprise and international sales talent
- Customer success & onboarding specialists

- Operating Model

- Vertical-aligned product squads
- Faster release cycles with customer feedback loops
- Dedicated innovation teams per industry

- Technology & Process Enablement

- Scalable cloud infrastructure
- Automated onboarding and support
- Data-driven roadmap prioritisation

- Long-Term Impact

- Faster innovation
- Higher customer retention
- Strong foundation for global scale
